Equine Locomotion / Kinesiology

Is your horse balanced? Where does it start?

SATURDAY, MAY 14, 2022

E Bar C Ranch Arena, Fisher Branch, Manitoba

Ed & Colleen Bernier's

9:30 a.m. to 4:00 p.m.

Lunch Break – 12:00 p.m. - 1:00 p.m.

Joel will help you understand counterbalance and five-points reflexology.
 What can and can't your horse do — and why? No hoof, no horse!

TOPICS COVERED

Saddle Fitting | Farrier Methods | Equine Anatomy
Equine Locomotion | Equine Massage | And much more...

The similarity of the hooves shows the horse's quarters (side by side) are balanced.

Thickness of the hoof walls shows that the horse is balanced.

Weight bearing (1/3, 2/3) is balanced.

TO REGISTER call 204-372-6937 or text 204-739-6414. Cost \$40.

Please pack a bag lunch and a lawn chair. Coffee and water will be available.

Directions to the Farm
